REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In the amendment after final submitted on 8/20/2003 the applicants have presented convincing argument as to why the prior art of Yamamoto can not be properly combined with the prior art of Yui. The fact remains that the prior art of Yamamoto explicitly teaches away from using more than 80 parts by weight of ethylene-propylene block copolymer. Therefore prior art of Yui teaching up to 90 parts of polymer when combined with the prior art of Yamamoto does not provide proper rejection.

A Notice of References Cited (PTO-892) is submitted with the notice of allowability, since the previous since previous form did not disclose prior art of Yamamoto.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
